

DISTINCTIVE FEATURES

Efficiency As the tip is simple design,
it's easy to see a sealing point.

The opening is wide,
and supply a good working.

As the hand piece is deep, you can use in a wide range.

Economy

No expendables
Reasonable price and little electrical power.

Usage

It's light and easy to use.
We can use like a stapler.

Safety

No worry to get burned.

Environment

It's good for the environment.
It can prevent alien mixture, and there are no wastes.
Suitable for our company.

OPTION

Option part for welding thin material

Available for welding thin plastic bag

Various materials can be welded.

PSP, OPS, PVS, HIPS, PPF, PP, A-PET, etc.

(Some is difficult to be welded.)

It depends on material thickness, surface treatment, coating, etc.)

SPECIFICATION

Frequency	57kHz
Output	20W
Consumption Electric Power	40VA
Power Source	AC100V/ 220V 50/60Hz
Timer	About 0-5second
Dimensions (mm)	Oscillator (body) : 125x170x53 Hand Piece : 28x117x54
Weight	Oscillator (body) : about 1kgs Hand Piece : about 200g
Power Cord	1.5m
Output Cord	50cm (curled cord)
