

Is it taken to pieces by electric shock or caught by **insect catcher**? What is the purpose to get rid of insects? Hate it or keep clean?

[What's Insect Catcher]

Insect catcher can lure insects by the ray which they like, and catch insects with the special adhesive tape.

[Differences from the electric shock insect killer]

	Insect Killer	Insect Catcher
● Ability	X	○
	As the current of insect killer can be passed only when insects touch 2 lattices, it has a fatal weak point, which is insect killer cannot catch small insects.	
● Discomfort	X	○
	Insect Killer has crackling sound, light on discharging, and smell of burned insects. It causes discomfort.	
● Safety	X	○
	As insect killer scatters dead bodies, it is dangerous to enter into food. Hanging type has dangers by setting defect, building decrepitude, earthquake, and so on.	
● Corresponding to ISO 9001 & HACCP	X	○
	As Insect Catcher can catch insects by adhesive tape, you can do monitoring. Namely it can help your HACCP system.
